Specialized in Python, Django, PL/SQL, and VB.NET, with expertise in building scalable web applications, automation tools, and internal business solutions. Proficient in HTML, CSS, JavaScript, Tailwind, and MySQL, with a strong focus on writing clean, optimized, and maintainable code. Adept at analyzing complex business requirements and delivering efficient, client-focused solutions.

Skills

Programming & Querying: Python, HTML, CSS, JavaScript (basic)

Frameworks & Libraries: Django, Flask, Tailwind CSS, Rest Framework, Celery, Redis, Fast API,

DATABASE: MySQL, Oracle PL/SQL

Tools & Platforms: Git, GitHub, IIS, AWS, MS-OFFICE, Postman, VS-Code, Visual Studio, Jira, Docker

Tata Consultancy Services ·

Full-time - Software Developer

Nov 2021 – Present | Mumbai

- Delivered **backend development solutions** in the **general insurance domain** for **ICICI Lombard**, ensuring high availability and reliability.
- Designed and developed **REST APIs** using **Python** and **Django REST Framework**, enabling smooth integration with third-party services.
- Implemented **version control practices** using Git, ensuring seamless collaboration across multiple teams.
- Collaborated with business analysts, testers, and clients to gather requirements, troubleshoot issues, and deliver **quality solutions on schedule**.
- Containerized and deployed web applications using Docker on AWS EC2 instances**, leveraging **AWS RDS** for database management to ensure scalability, reliability, and security.

Tech Stack: Python, Django REST Framework, Oracle PL/SQL, HTML, CSS, Git, Docker, AWS.

Projects

IL_Tracker | Python, Django, HTML, Tailwind, PL/SQL, Docker, AWS (EC2, RDS)

- Developed **IL_Tracker**, an internal TCS tool for BA data management, bug tracking, and task assignment..
- Gathered requirements from business analysts to design workflows and features aligned with project needs.
- Built backend and frontend using Python, Django, HTML, Tailwind, and PL/SQL, enabling real-time task updates.
- Containerized the application with Docker and deployed on AWS EC2**, using **AWS RDS** for database management.
- Implemented **CI/CD pipelines** for a, deployment, and continuous integration.
- Improved project management efficiency through centralized tracking, streamlined workflows, and real-time collaboration.

Education

SASTRA DEEMED UNIVERSITY

Master of Computer Applications - MCA

2022-2024

CGPA: 8.46 / 10

UNIVERSAL COLLEGE OF MSG-SGKM

Bachelor of Computer Science - (BSC-CS)

2018-21

CGPA: 8.27 / 10
